translocation experiments,
Seychelles warbler 291
transmission,
comparative biology and disease 43
transplantation experiments,
life history evolution in guppies 380
transposable elements,
molecular phylogenetic characters 295
tree-building methods 49, 357 (L), 358 (L)
Tribolium,
chaotic population dynamics 171
trophic networks,
intertidal food webs 173
tropical forest,
canopy access 418
conservation and biodiversity (BR) 450
ecosystem processes and regeneration (BR) 370
fragmentation (BR) 414
tropical forests,
diversity and climate change 249, 404 (L)
tropical rain forest (BR) 201
food webs (BR) 79
tubeworms,
refuge use in fluctuating environments 375
turnover,
trees in tropical forests 249, 404 (L)

U

ultraviolet light,
effects on plants 22
uncertainty,
aquatic life cycle strategies 384
refuge use in fluctuating environments 375
ungulates,
environmental stochasticity and population dynamics 143, 400 (L), 401 (L)
units of selection 367
UPGMA,
tree-building methods 49, 357 (L), 358 (L)
upwelling,
fisheries on coral reefs 364
UV-B,
effects on plants 22

V

vaccination,
metapopulation dynamics of infectious disease 395
valuation,
biodiversity 91
discounting (L) 193, 194, 402
value, biodiversity 334
variable environments,
aquatic life cycle strategies 384
refuge use 375
vegetation,
mediterranean-climate regions (L) 113
virulence,
evolution and resistance 196
vision,
signalling in stomatopods and cephalopods 167
vole cycles,
Hokkaido 340
von Bertalanffy, temperature and body size 235, 442 (L)

W

wasps,
fig pollination 94
wind,
as an ecological factor 108, 276 (L), 277 (L)
wings,
bats 53
winter,
emperor penguins 333
women,
in evolutionary biology 46
wood anatomy,
adaptations to wind 108, 276 (L), 277 (L)
World Conservation Congress 1996 131

Z

zooplankton,
life cycle strategies 384
oceanography 208
zoos (BR) 243
zootype,
phylotypic stage 461
zygomorphy,
genetics 85
